

About the Institute

The NIHFW, an autonomous organization, under the Ministry of Health and Family Welfare, Government of India, acts as an ‘apex technical institute’ as well as a ‘think tank’ for the promotion of health and family welfare programs in the country. The post-graduate education, training, research, evaluation, consultancy and advisory services in the field of health and family welfare have been a major focus of the institute. In order to facilitate continuous up-gradation of knowledge and skills of various health personnel across the country, the NIHFW has been conducting training courses in different areas at regular interval. In this endeavor, the Department of Management Sciences, NIHFW proposes to conduct an online training course on ‘Introduction to data Analysis’ from 09 - 11th August, 2021

Course Coordinating Team

Course Coordinator : Prof. M. K. Mallick
Course Co-Coordinator : Dr. Raj Narayan

Course Fee

There is a course fee of Rs. 1000/- per participant which can be paid by online banking. The bank details is:

Name of the beneficiary: Director, NIHFW
Bank Name& Branch: SBI,NIHFW, Munirka, New Delhi
Account No.: 10932790787
IFSC Code No.: SBIN0010439
Branch Code No.: 10439
MICR Code No.: 110002429

Further Correspondence to be addressed to:

Dr. Mihir Kumar Mallick
Course Coordinator
(Professor and Head)

ONLINE TRAINING COURSE ON INTRODUCTION TO DATA ANALYSIS

August 09-11, 2021

Department of Management Sciences
The National Institute of Health & Family Welfare
Baba Gang Nath Marg ,Munirka
New Delhi- 110 067

Introduction

Training at different levels of responsibility has yielded the quality of services in health sector which has a close accordance with RCH programme and launched National Rural Health Mission. Here, in this context, the role of NIHFW has become increasingly important to impart and sharpen the basic concepts of statistical knowledge and skills for health professionals and researchers in health and demography related data, coming from the community/ periphery level, studies or surveys. The faculties of the medical colleges are also stakeholders of the health care delivery. They also desire to understand how the demographic and health and family welfare data are generated, analyzed and interpreted to help programme managers in decision making and further improvement of the functioning of health and family welfare programmes.

The Department of Management Sciences, in this context has planned to conduct a training programme on 'An Introduction to Data Analysis' for the health professionals including faculty of medical colleges, researchers and students. The training course will have a special focus on statistical methods and analysis by using standard statistical software such as SPSS. The software "Statistical Packages for Social Sciences" (SPSS) is a powerful, user friendly and vastly used by academicians, researchers, and students to analyze the data of research studies/surveys/evaluations etc.

The aim in this training course is to give brief and straightforward descriptions of how to conduct a range of statistical analyses as it does an extensive range of both Uni-variate, Bi-variate and Multivariate procedures using the latest version of SPSS.

General Objective

To enable the participants be familiar with data analysis techniques by using SPSS software

Specific Objectives

On completion of the training program the participants will be able to:

- i. Describe the steps of data analysis
- ii. Prepare the coding plan and create data set
- iii. Describe the nature of variables
- iv. Describe the applications of the statistical tools of SPSS in data analysis.

Course Contents

The course intends to cover topics such as:-

- Introduction to data analysis
- Basic features of SPSS
- Preparation of SPSS Data set, Measurement scale of variables
- Data management
- Data Analysis
- Frequency, histogram and normal curve
- Crass tabulation
- Testing of hypothesis
 - Parametric
 - Z test,
 - F-Test,
 - T test,
 - Non Parametric:
 - Chi square
 - Mann Whitney U test,
 - Wilcoxon Signed Ranks test
- Modification of outputs and exporting to different formats

Methodology

- Lecture cum Discussion
- Participatory discussion
- hands-on training and problem solving through exercises
- Data analysis using SPSS statistical software

Duration

Three days, Date: 09th to 11th August, 2021

Nature of Participants

Health care professionals working in government and private medical colleges, nursing colleges and the state demographer and statisticians, social science researchers and students engaged in health research

Last date for Receiving Nomination

04st August, 2021

Venue

Through online mode by the National Institute of Health and Family Welfare
