

Introduction

The Government of India launched the National Rural Health Mission (NRHM) in April 2005 with a goal to improve the availability of and access to quality health care by the people, especially for those residing in the rural areas, the poor, women and children. The NRHM proposed an intensive monitoring and supervision framework through a three pronged process of community based monitoring, external surveys and stringent internal monitoring. A programme was designed and initiated to tackle problems with certain goals and objectives by adopting various appropriate strategies to achieve them. For comprehensive monitoring and evaluation of the programme, improvement in knowledge and skills of personnel involved in monitoring and evaluation through training, greater interaction between programme officers, administrative/finance officers and statisticians and wider dissemination of information up to grass root level workers is necessary. This will also minimize some of the problems related to programme management.

In order to improve the skills of the health professionals for monitoring of NHM with special focus on RCH Programme, the National Institute of Health and Family Welfare, New Delhi has planned to organise a training course on “Monitoring and Evaluation under NHM”.

General Objective

To enhance the competence of State/district level officials in monitoring and evaluation under NHM.

Specific Objectives

At the end of training participants would be able to:

- Describe conceptual framework relating to M&E and Supportive Supervision.
- Discuss various concepts and techniques of monitoring and evaluation including surveillance.
- Describe use of information available in HMIS and MCTS portals for monitoring of the programme.
- Discuss the concept and methods of participatory monitoring and evaluation.
- Discuss and use log-frame approach as monitoring tool.
- Discuss the use of M&E results for policy and planning purposes.
- Develop brief plan of action for strengthening capabilities of district level functionaries in monitoring & supportive supervision under NHM in their respective states.

Course Contents

- Conceptual Framework of Monitoring & Evaluation and Supportive Supervision
- Concepts and Techniques in M & E including Surveillance
- Designing M&E Indicators
- Data Quality Framework in M & E
- Use of Demographic Health Surveys in M&E under NHM.
- Utilization of HMIS & MCTS portal for decision making.
- Result based M&E system under NHM.
- Participatory/Community Monitoring under NHM.
- Common Review Mission (CRM) as tool of M&E

- Log-frame approach in M &E.
- Data Triangulation using various sources for monitoring of NHM
- Communicating M&E results for Policy and Planning

Methodology

Lecture discussion, group work, exercise & presentation by participants, etc.

Number and Nature of Participants

The participants of this course will be State NHM/RMNCH Coordinators, State Demographers, RMNCH+A Consultant, officials of PMU, faculty from Medical Colleges/SIHFWs/PRCs etc.

Course Outcome

This training course is expected to enhance the competence of state level officials/trainers in the preparation of district/state level plan of action for monitoring under NHM including RMNCH+A. The course will also be helpful to undertake the situational analysis of monitoring and evaluation (M&E) system in place under NHM in various States and to plan appropriate training of the officials at various levels in M&E.

It's not lack of health programmes but implementation that plagues primary health care system in India. Implementation without monitoring, feedback and corrective actions is wastage of resources

About the Institute

The National Institute of Health and Family Welfare is a premier autonomous Institute, funded by the Ministry of Health and Family Welfare, Government of India. It has kept pace with the new thinking and substantially contributed to the health human resource development in the country.

NIHFW serves as an apex 'technical institute' as well as a 'think tank' to promote health and family welfare programmes in the country through education and training, research and evaluation, consultancy and advisory services, specialized projects, etc.

Location of the Institute

It is situated in South Delhi near Munirka DDA Flats and opposite to Jawaharlal Nehru University. It is easily accessible using pre-paid Taxi/Auto-rikshaw from Indira Gandhi International/ Domestic Airport and the New Delhi Railway Station which are approximately 7 kms. and 15 kms respectively. The Institute is 5 kms away from Hauz Khas Metro Station.

Course Coordinating Team

Course Coordinator : Prof. V.K. Tiwari
Course Co-coordinator: Dr. Ramesh Chand
Course Associates : Dr. Sherin Raj T.P
Dr. Ramesh Gandotra

Venue

Teaching Block, National Institute of Health & Family Welfare, Munirka, New Delhi 110067.

Course Fee

There is a course fee of Rs. 5000/- for each participant, to be borne by sponsoring states/organizations. TA /DA /Other expenses will have also to be borne by the participants themselves or their sponsoring organizations. Under no circumstances, NIHFW will bear TA/DA of participants. However, stationery, computer facility etc and morning/evening tea will be provided by the Institute during the training course.

Accommodation

Moderate boarding and lodging facilities at nominal rates are available to participants in the Institute's hostel located in the campus. Hostel email is hostel@nihfw.org and reception phone numbers are 011-26165959, 26166441 - Ext 154

Weather

Weather in September will be moderate to humid. (Temperature varies from 25 to 33°C)

Last Date for Receiving Nominations

31st July, 2017

Participants are requested to make advance travel plans but proceed only after receiving confirmation from NIHFW.
