

## ONLINE TRAINING COURSE ON LOGISTICS AND SUPPLY MANAGEMENT SYSTEM IN HEALTH AND FAMILY WELFARE FROM 05<sup>th</sup> - 09<sup>th</sup> July, 2021

### INTRODUCTION

The original meaning of the Word 'Logistics' had distinct military connotation, defined by Webster as "the branch of military science concerned with the procurement, transportation, maintenance and supply of troops, equipment and facilities used for bellicose purposes." Similarly, a Health and Family Welfare Programme has its logistic system, which provides essential medicines and contraceptive supplies even to remote peripheral service points on a regular basis. If this logistics supply malfunctions, the whole programme suffers; if it is interrupted, the whole programme collapses. Thus, the Health and Family Welfare Programme managers have been quick to identify logistics as a crucial component of Health Care Delivery System

**Prof. Manish Chaturvedi**  
Professor, NIHFV

**Prof. Sanjay Gupta,**  
Professor, NIHFV

### Course Detail

- ❖ **Participants:** Medical Officers/Officers dealing with logistics & supply
- ❖ **Schedule:** Three sessions will be conducted daily (10 AM to 03:30 PM)
- ❖ **Last Date :** Nomination will be accepted till 02nd July (Friday), 2021
- ❖ **Course Fee :** ₹ 1000/per participant
- ❖ **Fee Deposit Detail :** Account Name: Director, NIHFV, Branch : SBI, NIHFV A/C No.: 10932790787 IFSC Code: SBIN0010439

**CONTACT: Prof. Manish Chaturvedi**  
Prof. & Head, Dept. of MCHA &  
(Course Coordinator)
