The programme guide for PG Diploma in management course through distance learning mode is described in three parts:

- A. Common program guide for all distance learning courses
- B. Prospectus cum Application form for specific PG Diploma in management course
- C. Annexures

Important Links

**Electronic version of the programme Guide is available for download at:
<http://www.nihfw.org> or http://www.nihfw.org/WE_Learning.html**

The link for filling online application form for student:Will be available in few days

All applicants are advised to submit the form by following 2 methods:

- 1. Download and Print the PDF form given in the website. Fill it and enclose all required documents as mentioned in the application form along with the bank draft of fee payment and send it by Post it to the address mentioned below.**

Or

- 2. Open the link for filling online application form. Fill the application form online, upload all the required documents and scanned copy of the bank draft of fee payment. Applicants are requested to print the auto generated acknowledge slip and attach original copy of the bank draft of Fee payment and send it by post to the address mentioned below.**

Note: Due to technical issues the link for filling online application form will be made available shortly

A. Common Program Guide for All Distance Learning Courses

1. THE NATIONAL INSTITUTE OF HEALTH & FAMILY WELFARE

1.1 INTRODUCTION

The National Institute of Health and Family Welfare (NIHFW), was established on 9th March, 1977. The NIHFW, is an autonomous organization, under the Ministry of Health and Family Welfare, Government of India. It acts as an 'apex technical institute' as well as a 'think tank' for the promotion of public health and family welfare programs in the country.

The Institute addresses a wide range of issues on public health and family welfare through teaching, training and research in public health from a variety of perspectives through the departments of Communication, Community Health Administration, Education and Training, Epidemiology, Management Sciences, Medical Care and Hospital Administration, Planning and Evaluation, Reproductive Bio-Medicine, Statistics and Demography and Social Sciences.

1.2. DISTANCE LEARNING CELL

The Distance Learning Cell was set-up with the objective to facilitate continuous up-gradation of knowledge and skill of various health personnel for delivering better health care across the country with credentials for leadership in Public Health. The courses cater to the increasing demand for Health Professionals in National and International Public Health Organizations, public and private health research institutes, Non-Governmental Organizations (NGOs). The cell provide access to quality education to all those who seek it irrespective of age, region, religion and gender.

The main functions of the Distance Learning Cell are to Plan, Develop and launch of academic programmes at various levels for different categories of health professionals through the distance learning and e-learning mode.

1.3 INSTRUCTIONAL (TEACHING AND TRAINING) PACKAGE

The NIHFW has been engaged in providing Education and Training to health professionals since the last four decades through its regular courses of MD (Community Health Administration), Diploma in Health Administration, Post Graduate Diploma in Public Health Management and other in-service training programmes through regular mode.

There is large cadre of health professionals whose in-service training needs are to be met with on continuous basis. However, the in-service training arrangement are not sufficient to meet the public health demands expeditiously. Moreover, there is a need for continuous and consistent training in management, especially for the managers taking care of the district health system in the country. In order to facilitate continuous up-gradation of knowledge and skills of various health personnel across the country, the National Institute of Health & Family Welfare (NIHFW) with the recognition from All India Council of Technical Education (AICTE) and approved by Ministry of Health and Family Welfare, Government of India, conducts Post Graduate Diploma in Management (PGDM) courses through distance learning mode with specialization in:

- (i) Health and Family Welfare Management**
- (ii) Hospital Management**
- (iii) Health Promotion**
- (iv) Public Health Nutrition**
- (v) Applied Epidemiology**
- (vi) Health Communication**

The mode of providing these distance learning courses comprises of different components such as self-instructional material, contact/interactive sessions along with written assignments and writing Dissertation.

1.4 LEARNING MATERIALS

Learning material is especially prepared by team of subject experts drawn from different National Level Institutes, Medical Colleges and Universities of all over the country as well as in-house faculty.

1.5 SUPPORT SERVICES

The National Documentation Centre (NDC) is a unique information resource center, which provides an access to documents on all aspects of the subjects of health, population, family welfare etc. It serves as a bank of information for faculty, students and visitors.

NDC has a rich collection of materials of public health importance like books, journals, monographs, and online journals, government reports, seminar and conference proceedings, census reports, international publications on Health and Family Welfare and allied disciplines, CD-ROM and online databases, like POPLINE, DELNET.

1.6. EVALUATION SYSTEM OF DISTANCE LEARNING COURSES

The evaluation of learners depends upon various instructional activities undertaken by them. It is compulsory for the learner to write two assignments before taking final

examination to complete an academic programme. The system of evaluation comprises of:

1. Self-assessment exercises at the end of each unit of study.
2. Continuous evaluation mainly through assignments which are tutor-marked, contact programmes and its feed-back evaluation.
3. Dissertation works
4. The final examinations.

A learner has to submit Assignments/Dissertation to the Coordinator of the concerned course to which she/he is enrolled as a part of course requirements. The Final examination is usually conducted at the NIHFW and its satellite center in the month of November/December after a completion of study period of 15 months.

1.7 IMPLEMENTATION PLAN

The **two Contact programmes** are held primarily at the NIHFW, New Delhi for all admitted candidates or at the satellite centers, if identified by the NIHFW located in State Health and Family Welfare Institutes (SIHFW) or Regional Centers provided that state sponsors their candidates (more than 25 candidates) in a specific course. These centers facilitate the state sponsored candidates.

The self-sponsored candidates may opt for the nearby established satellite center if available. Whereas, it will be the sole discretion of the institute to accommodate them in contact programme and examination. Hence prior permission from the NIHFW is mandatory for attending the course related activities at satellite center for self-sponsored candidates due to the limitation of facilities at satellite center.

The technical sessions in two contact programmes will be taken by a team of trained faculty. This involves face-to-face interaction/consultation. Coordinators/consultants will help in Dissertation work. Self-learning activities are carried out by the learner at their workplace. The Administrative control is through the NIHFW- HQ at New Delhi. In addition, from this session (2023-2024) there will be one online training/ classes of 3 days' duration on Research Methodology workshop will be organized for all the course participants.

1.8 COMMON TERMINOLOGIES USED IN DISTANCE LEARNING

As a distance learning candidate, it is important for one to familiarize with the following terminologies which would be commonly used while pursuing this programme.

Programme

Programme, means the curriculum or course in a particular field of study. For example, Post Graduate Diploma in Management - Health Communication.

Course

The course material is divided into 'Course' and further into 'Blocks'. It is used to describe the teaching materials and other components of the study. A typical distance education course will, for example, have a few printed booklets called blocks.

Block

A course is divided into some blocks and further divided into various 'units'. The block appears in the form of a booklet of around 60-80 printed pages. Generally, each block represents one titled theme e.g. Course 1 – Health Communication: An introduction has 4 blocks and title for block – 1, Communication – an Overview.

The printed text material is sent to the learners in the form of blocks as a learner may feel a greater sense of achievement each time she/he completes a block.

Remember that each course consists of a few blocks which appear as Booklets.

Unit

The term unit, of course, is used to denote a division of a block, in terms of the topic used to frame the topic. Each unit is broken into sections and sub-sections in the forms of chapter/Lessons for the clarity of the presentation of concepts, information, illustrations etc. Each unit is, thus an individual lesson/chapters and fits into the topic relevant to the block it belongs.

Contact Programme

Although the Distance Learning mode demands a candidate to work mainly at home, face-to-face interaction is equally essential. This face-to-face interaction serves to solve administrative as well as academic problems faced by the candidates. In order to facilitate this, the NIHFV organizes two contact programmes each of 5 days' duration for all the candidates at identified teaching center.

Remember: It is compulsory to attend both the contact programs of 5 days each and also online workshop.

Study Centre

For all the administrative as well as academic purpose the NIHFV, New Delhi will be the Study Center for all the candidates.

Satellite Centre

If a State sponsors more than 25 Candidates (1 Batch) in a specific PG diploma programme, the State Institute of Health and Family Welfare (SIHFW) of the respective state will act as a Satellite Centre for those sponsored candidates. For the state sponsored candidates, the contact programme/examination will be organized at the SIHFW. The self-sponsored candidates from the same states or nearby states may attend the same with prior permission from NIHFW.

Resource Faculty

Internal and External Faculty/Resource Person/experts are identified in the programme offered by the NIHFW to guide the candidates for theory and practical training.

Academic Consultation

All types of faculty-learner interaction that are aimed at facilitating learning is promoted. These interactions may mainly be discussion/orientation in nature with guidance and unit presentation. However, sometimes interaction may exclusively be in the nature of consultation. Such consultation may be at

- (i) the pre-enrollment or pre-entry stage,
- (ii) the stage of induction into a programme,
- (iii) the stage of submitting the assignments,
- (iv) the stage of initiation into any new activity such as a synopsis approval, preparation of a Dissertation-report etc.
- (v) the pre-exam stage and
- (vi) the post-programme stage.

While consultation is subject-centered (Centering around presentation, exposition, explanation, illustration, demonstration and other pedagogical activities related to the course-content), consultation is learner-centered seeking to help learners identify their individual problems, the causes behind such problems and the means and ways of overcoming such problems so as to enhance the possibilities of effective learning. Academic consultation may be provided in face to face situation, through faculty comments on assignment-response, through correspondence or interact over telephone where possible.

Assignment

It is a learning task (consisting of essay type questions, or short answer questions, or a Dissertation, etc.) that a distance learner undertakes during his/her studies. At NIHFW, it is used as an instrument of continuous assessment that carries weightage in final score. The assignments are used for two purposes: to provide guidance and to assess learner achievement through grading/marking.

1.9 INSTITUTE RULES

Reservation

The institute provides reservation of seats as per the Government of India Rules.

Contact Programmes

The candidates are required to attend both the contact programmes before appearing in the final examination in the academic year.

Final Examination

The NIHFW will conduct final Examination once a year in the months of November/December. The candidates are required to complete the final examination in the academic year of admission itself. Whereas, the candidate will get opportunity to appear for the examination in three chances including the year of admission without paying the course fee again. However, the candidate has to deposit a nominal continuation fee in the subsequent academic year in which they wish to appear in the examination.

Note: Candidate will be permitted to appear in the final examination subject to the conditions that she/he has attended Two Contact Programmes, submitted two Assignments and Dissertation Report within stipulated date.

Candidates are advised to:

- Remain in touch with the Institute's website for schedule of submission of examination form and any other issue related to the course.
- Fill up all the particulars carefully and properly in the examination form to avoid rejection/delay in processing of the form; and
- Retain proof of mailing/submission of examination form till receipt of examination hall ticket.

Examination Centre

The NIHFW, New Delhi will be the examination center for all self-sponsored candidates whereas, for state sponsored candidates the satellite centers will act as examination center. If the State does not sponsor required number of candidates for the next batch in a specific course, the NIHFW will be the center for all examination of the course for the leftover candidates.

Self-Sponsored: The candidates who are paying their fees themselves will be called as self-sponsored candidates.

State Sponsored: These candidates who are sponsored by the State Health and Family Welfare Department.

Issue of Examination Hall Ticket

The Institute Issues Examination Hall Ticket to the candidates one day before the commencement of Final Examination,

Change or Correction of Address

There is a printed Performa for a change/correction of address given in Annexure – 7. In case there is any correction or change in your address, you are directed to make use of that printed Performa only. The contact address for submitting the same ***The NIHFW, Distance Learning Cell (DLC), Room No. 417, Baba Gangnath Marg, Munirka, New Delhi-110 067.***

You are advised not to write letters to any other officer in the Institute in this regard.

Issue of Study material and assignment

The NIHFW dispatches the study material and assignment to the candidates. Candidates can download the assignment questions from the NIHFW website and for this open **www.nihfw.org** then click Distance Learning Cell click respective programme and then click Assignments. Application form for non-receipt of study material and assignments are given in Annexure-3.

Submission of Assignments

Dates are notified on the front page of each assignment. Normally the dates are 15th April, 2023 for 1st Assignment (with late fee 30th April, 2023) and 31st July, 2023 for 2nd Assignment (with late fee 16th August, 2023). Distance Learning Cell (DLC) will provide an assignment acknowledgment slip by email or by hand.

Submission of Dissertation

Synopsis of the Dissertation need to be approved within one month after completion of first contact programme by the respective course coordinators. Dates for submitting the

final Dissertation report is 15th October, 2023 (with late fee 31st October, 2023). Distance Learning Cell (DLC) will provide Dissertation acknowledgment slip by email or by hand.

The Late fee charges are payable by DD/RTGS/NEFT is Rs. 500/- in favour of “DIRECTOR NIHFW DLC”, New Delhi

If the last date happens to be a Government Holiday, the period will be automatically extended to the next working day. Assignments/Dissertations should be sent by registered post/speed post only. Sending through courier service will not be entertained. However, the same can also be submitted directly by hand at the address given below:

The National Institute of Health and Family Welfare

Distance Learning Cell (Room No. 417)

Baba Gangnath Marg, Munirka, New Delhi – 110067

1.10 COURSE FEES

- **Course admission fee - Rs. 21,000/-** [Rupees Twenty-One Thousand only] including 1st year examination fee and admission form.
- Prospectus along with the application form has to be downloaded from the institute web site www.nihfw.org.
- Once the application with requisite fees is received in this office, the request for withdrawal is permissible if request is placed within one month of submission. On withdrawal a cancellation fee of Rs.1000/-will be charged. This cancellation fee will be deducted from the total course fee and the balance amount will be refunded to the candidate at her/his address mentioned in the application form by way of Demand Draft drawn in their name or RTGS to candidate’s account.
- The full fee will also be refunded to those, who have not been selected for the course by the screening committee after deducting Rs 1000/- as processing fee.
- Those who fail to complete the course in the same year will have to deposit a continuation fee of Rs.500/- in subsequent years (within next two years) in which candidates wanted to complete the course.
- **All types of fees are to be deposited separately by different Demand drafts drawn in favor of “DIRECTOR NIHFW DLC” payable at New Delhi or by NEFT/RTGS as per the details given as below.**

Details for Payment by NEFT/RTGS :

Beneficiary/Account Name	DIRECTOR NIHFW DLC

Bank A/C No.	Account No. 40577822142
IFSC/NEFT/RTGS Code	IFSC: SBIN0001624

Note: Copy of the receipt of NEFT/RTGS is required to be sent along-with the application form as a proof.

2. DLC COURSES - PROGRAMME PACKAGE

A. Course Design

The printed study material for both theory and practical component of the programme will be supplied to the candidates.

The entire course has been divided into four parts.

➤ **Self -reading by candidates**

- Each candidate must devote at least 600 hrs for the course study materials in the year
- Test question practice at the end of each chapter (Check your progress) to assess your knowledge gain from the module.

➤ **Internal assessment**

- Writing two assignments
- Attendance in the two contact programmes
- Dissertation Work

➤ **Final Examination**

1. Theory Component

- Final Theory examination

2. Practical Component

- Final Practical Examination

B. Contact Programme

There will be Three-day online contact programme and followed by two contact programmes of 5 days' duration each on offline mode at NIHFW or Selected Satellite Centre's in months given below:

- Three -day online contact programme: October 2023 on Research Methodology**
- 1st contact Programme February/ March 2024**
- 2nd contact Programme June/July, 2024**

- Each contact program carries a weightage of 20 marks. Attendance and assessment of feedback by candidates in contact session will be considered for this weightage in internal assessment.
- Full attendance in contact classes is compulsory.
- Candidates may bring with them the queries and blocks on the relevant topics for discussion during contact session.
- The candidates have to attend the contact programs at their own cost at the identified center.
- Limited hostel accommodation on payment may be made available on prior request.
- No TA/DA or free accommodation will be provided during contact sessions/final examination.

The final dates will be given in the Institute web site

The contact programs will be held at The NIHFWS, New Delhi or Selected Satellite Centre's. The exact date and place of contact sessions will be put in the Institute's Web site.

The teaching under each contact program will be carried out on thematic basis as set against the programme.

3. HOW WILL YOU STUDY THE COURSE MATERIAL

The candidates of distance education system are adult learners. Hence, the self-instructional materials are written with the objective and style so as to make the reading interesting and easily understandable. A schematic representation of the design of units is given below to facilitate your access to the contents.

Unit X*
X.0 Objectives
X.1 Introduction
X.2 Section (Main Theme)
X2.1 Sub-section 1 of Section 2
X2.2 Sub-section 2 of Section 2
.....
.....
Check Your Progress

X.3 Section 2 (Main Theme)
X3.1 Sub-section 1 of Section 3
X3.2 Sub-section 2 of Section 3
.....
.....
Check Your Progress

Check your Progress
X.m Let Us Sum Up
X.n Keywords
X.o Suggested Readings

* "X" stands for the serial number of the unit concerned.

Please start reading from the very beginning of the block, i.e. Block Introduction which give you an idea of contents of a block and then go through the units. In each unit read the objectives, introduction and then the text. The objectives explain briefly:

- What we have presented in the unit and
- What we expect from you once you complete working on the unit.

After going through the unit you should be able to:

- 1) Learn about the title presented in each unit, under each sub sections.
- 2) The unit introduction tells you about the content of the unit. The text gives you the content that you need to learn.
- 3) The last section of each unit under the heading 'Let Us Sum Up' summarizes the whole unit and giving a brief summary and revision of the entire unit.

Further there are self-check exercises under the caption 'Check Your Progress' at a few places in each unit. Do not skip these exercises. This exercise further enhances your learning of topic and revision helps in better grasping of knowledge.

Broad margins in the booklets are there for you to write your notes on. Do use these margins. This will help you prepare for the examination.

4. EVALUATION

A. Course Evaluation

The diploma course has two tiers of valuation.

- (i) Formative or Internal assessment
- (ii) Terminal or final examination.

I. Formative Evaluation (During the course): **Internal Assessment.**

- (A) Attendance with feedback in the contact program.
- (B) Submission of assignment within stipulated date.
- (C) Submission of Dissertation report within stipulated date.

II. Terminal Evaluation: **Term end Final Examination**

- (A) Theory Paper-I
- (B) Theory Paper-II
- (C) Practical will comprise of various forms, strategies and channels of communication in respect of diverse issues in health communication from the practical manual and spotting.
The details about Practical will be briefed during contact session.
- (D) Viva voce
 - Dissertation Viva
 - Grand Viva

B. Assignments

- Candidates are required to write 2 sets of assignments.
- The assignment will be sent along with Study material and introductory letter.
- The assignment is also posted on the institute's web site (www.nihfw.org).
- Answer of the assignment question should be written in candidate's own language, copy done from the block is not permitted.
- All the assignments will be **hand written** in A-4 size paper.
- Illustration with diagrams, tables, examples will help to get good marks.
- Each assignment should be written in separate bunch of papers.
- Each answer in the assignment must start from a fresh page.
- Photocopy of any printed material in the assignment or '**typed assignments**' will **not be accepted**.

- Assignments received after due date will debar the candidate to sit in the final examination of the current academic year, however he/she can appear in the subsequent years.
- Each assignment will carry a weightage of 30 marks. It will be included in internal assessment.
- A photo copy of each assignment is to be retained by the candidate for future reference.
- Assignment can also be written in Hindi.

Item	Due date of Submission	With late fees. of Rs. 500/- by DD
Assignment - 1	15 th April, 2024	30 th April, 2024
Assignment - 2	31 st July, 2024	16 th August, 2024

If the last date happens to be Government Holiday, the period will automatically extend to the next working day. **Assignments/Dissertations should be sent by registered post/speed post only.** However, the same can also be submitted directly by hand in the Distance Learning Cell, NIHFV, New Delhi.

C. The Dissertation Work

- **Selection of the topic will be done in the 1st contact programme.**
- Synopsis of one to two pages inclusive of title, objectives review of literature & methodology to be submitted before start of Dissertation work for approval within one month after first contact program. After a specified stipulated time, the synopsis will not be entertained for the current year.
- Dissertation should ordinarily not exceed **15000 words** and as per the guide lines
- The Dissertation should be submitted as per last date notified, failing which the candidate will be debarred from appearing in final examination of the current academic session; however, he/she can appear in subsequent years after submitting the Dissertation.
- The date of submission of Dissertation is **15th October, 2024** extended up to **31st October, 2024** with late fine of Rs.500/- (Rupees five hundred) only.

D. Eligibility for appearing in Final Examination

- I. Submission of assignments on time.
- II. Submission of Dissertation Work on time.
- III. Full attendance in both the contact session.

50% marks of aggregate marks of Internal Assessment i.e. from Assignments, Contact programs & Dissertation

E. Final Examination

The final examination will be held in the Teaching Block of the **NIHFW campus**, New- Delhi/ Satellite centers.

- Examination date sheets (schedule which indicates the date and time of examination for each course) will be displayed on our website www.nihfw.org in advance. The same will also notified through Email from time to time. The date sheet for December 2024/January, 2025 examination will be available on our website usually in the month of October, 2024.
- It is essential to submit the Examination form for taking examination. Copies of the examination forms will be available on our website. A copy is also enclosed here at Annexure-2.
- The filled-in examination form is to be submitted to the **Nodal Officer, Distance Learning Cell, NIHFW, Baba Gangnath Marg, Munirka, New Delhi -110 067. The last date for submission of examination forms are 15th November, 2024.**
- After receiving the examination form, the DLC will send intimation by email within 15 days. If one does not receive the intimation or email 15 days before the commencement of the examination, the candidate may contact Distance Learning Cell.
- Any candidate caught using unfair means during examination will be debarred from appearing in examination.
- Any request for appearing for final examination after the extended period of 3 years including the year of admission will not be entertained with the same course fees.
- The Institute Issues Admit Card to the candidates before the commencement of Final Examination.

F. Distribution of Marks

Course Code and Name	Online contact Programme (3 days @ 1 marks for Morning & Evening for 2 days & 1 mark on 3 rd day for attendance)	Contact Programme @ 1.75 marks for Morning & Evening attendance for 5 days		Assignment		Dissertation	Theory		Practical	Viva-Voce	
		1 st	2 nd	1 st	2 nd		1 st	2 nd		1 st	2 nd
Post Graduate Diploma in Management: <ul style="list-style-type: none"> • Health & Family Welfare • Hospital Management • Health Promotion • Applied Epidemiology • Public Health Nutrition • Health Communication 	RM (Research Methodology)										
	5	17.5	17.5	30	30	100	100	100	50	25	25
	Internal Assessment 200						Theory 200		Practical 100		

G. Examination Result

A candidate will be declared pass if he/she secures:

- ▶ 50% in aggregate = 250 out of 500 subjected to:-
- ▶ 50% in aggregate in Theory Paper = 100 out of 200 and
- ▶ 50% in aggregate in Practical & viva= 50 out of 100
- ▶ 50% in aggregate of internal assessment 100 out of 200 (for eligibility)

If a candidate passes in theory and fails in practical component, he/she will reappear in practical component only.

If a candidate fails in theory and passes in practical component, he/she will reappear for theory only.

Results for theory and practical components will be declared separately on the web site.

H. Certificate

One has to complete the programme within minimum stipulated period of 15 months or within a maximum period of three academic years. After successful completion the candidate are awarded a Mark sheet and Certificate for the programme by the NIHFW.

I. Duplicate Certificate/ Mark sheet

For successful candidates a duplicate certificate or Mark sheet can only be issued under following conditions:

- Fill the application form for issue of duplicate Mark sheet/Certificate as given in the Annexure-6 of the prospectus.
- A fee of Rs.500/- each separately to be paid for duplicate Certificate and/or Mark sheet in the form of demand draft in favour of “**Director NIHFWDLC**” payable at **New Delhi**.

J. Best Student Award

The candidate who obtains highest aggregate marks in the academic year of examination will be honored with ‘Best student award’ (A medal with certificate) on 9th March (Annual day of the Institute) of the following year. However, it will be applicable only to the candidates enrolled and passing out in the current academic year.

5. HOW TO APPLY

- a. A candidate seeking admission to Post Graduate Diploma in Management course is required to send his/her application in the prescribed format (PDF) as given in the website OR as given at the end of the Programme Guide duly completed attaching required supporting documents, along with ***Draft for requisite fees or RTGS/NEFT Receipt and*** send it by post to the address mentioned below.

or

Open the link for filling online application form. Fill the application form online, upload all the required documents and scanned copy of the bank draft of fee payment. Applicants are requested to print the auto generated acknowledge slip and attach original ***Draft for requisite fees or RTGS/NEFT Receipt*** and send it by post to the address mentioned below.

Address:

Programme : _____

**The National Institute of Health and Family Welfare,
Distance Learning Cell (DLC) (Room No. 417)
Munirka, New Delhi- 110067**

- b. Following enclosures must be attached along with the application form:
- Demand draft or receipt of RTGS/NEFT of requisite amount.
 - Self-attested copy of certificate of Birth.
 - Self-attested copy of qualification certificates as applicable.
 - Copy of Registration certificate with respective National/State council.
 - Test pass certificate from NMC for candidates with degree from abroad.

Incomplete application in any respect is likely to be rejected.

6. LIST OF THE PROGRAMME:NAME OF THE COURSES, NO OF SEATS, ELIGIBILITY CRITERIA, COURSE FEES AND MEDIUM

S. No.	Name of the Courses	No. of Seats	Qualification	Eligibility	Course Fees (Rs.)	Study Medium
1.	Post Graduate Diploma in Management - Health and Family Welfare (PGDM-H&FW)	100	MBBS/MS/MD/BDS/ MDS, AYUSH Doctors and B.Sc. Nursing	<ul style="list-style-type: none"> • Must be registered with respective National council. • Experience of 2 years after internship for MBBS & Other medical graduates and B.Sc. Nursing is essential. 	21,000/-	English
2.	Post Graduate Diploma in Management - Hospital Management (PGDM-HM)	300	MBBS/MS/MD/BDS/ MDS, AYUSH Doctors and B.Sc. Nursing	<ul style="list-style-type: none"> • Must be registered with respective medical council. • Experience of 2 years after internship for MBBS & Other medical graduates and B.Sc. Nursing is essential. 	21,000/-	English
3.	Post Graduate Diploma in Management - Health Promotion (PGDM-HP)	150	MBBS/MS/MD/BDS/ MDS AYUSH Doctors and B.Sc. Nursing	<ul style="list-style-type: none"> • Must be registered with respective medical council • Experience of 2 years after internship for MBBS, other medical graduates and B.Sc. Nursing is essential. 	21,000/-	English
4.	Post Graduate Diploma in Management - Applied Epidemiology (PGDM-AE)	150	All Medical Graduates, Graduate in Science/Social Sciences, Master in Public Health, Graduation in Epidemiology and Statistics	<ul style="list-style-type: none"> • Must be registered with respective national council (wherever applicable) • Experience of 2 years after internship for MBBS, other medical graduates and other Graduates 	21,000/-	English

5.	Post Graduate Diploma in Management - Public Health Nutrition (PGDM-PHN)	150	All Medical Graduates, Paramedical staff like B.Pharma and Graduate in Science/Social Sciences	<ul style="list-style-type: none"> • Must be registered with respective national council (wherever applicable) • Experience of 2 years after internship for MBBS, other medical graduates and other Graduates 	21,000/-	English
6.	Post Graduate Diploma in Management - Health Communication (PGDM-HC)	150	All Medical Graduates, B.Sc. Nursing, General Nursing Midwifery and Graduate in Science/ Social Science	<ul style="list-style-type: none"> • Must be registered with respective National council (Wherever applicable). • Experience of 2 years after internship for MBBS, other medical graduates and other Graduates 	21,000/-	English

B. POST GRADUATE DIPLOMA IN MANAGEMENT PROGRAMMES

7. POST GRADUATE DIPLOMA IN MANAGEMENT PROGRAMMES

1. Post Graduate Diploma in Management -Health and Family Welfare (PGDM-H&FW)

There had been a growing recognition of the need to provide management education to health and family welfare personnel at all levels. NIHFW and other State training institutions had been organizing short-term in-service courses to meet the requirement but could not cope up with the demand. Hence, NIHFW with the financial assistance of WHO, made an effort to develop a course through Distance Learning for the District Level Health Administrators and conducted a trial course in 1991-92 in close collaboration with the Indian Institutes of Management and other premier health and family welfare institutes in the country under the aegis of National Consortium of Institutions in Health and Family Welfare Management. From 1992-93 onwards NIHFW is offering this course on a regular basis.

a. Objectives of the Course:

The candidates at the end of the programme will be able to:

- Describe the existing structure and functioning of the health system in the country;
- Identify the managerial problems and processes associated with the system;
- Utilize various management concepts/techniques/tools and resources to improve the functioning of the system; and
- Apply the managerial skills to develop the health system.

b. Nature of the Course:

This course has been designed keeping in mind the managerial skills required for the health & family welfare personnel at all levels. The course is continued in distance learning mode. The course is imparted by means of supplying printed study materials for self-study, two contact programs, submission of assignments and dissertation report.

c. Details about the Course:

- The total duration of the course is 15months.
- The course comprises of theory and practical components.
- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate unable to complete the course in the academic year of admission, he/she can complete the course in the two subsequent academic years by depositing a continuation fee.
- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. **Medium of Study:** The medium of study is English. A candidate may appear the final examination in Hindi also.

e. **Curriculum of the Course:**

The curriculum is divided into 4 Themes consisting and 19 Blocks. The fourth theme gives the guidelines for the Dissertation work. The break-up of the curriculum is given below:

Post Graduate Diploma in Management - Health and Family Welfare (PGDM-H&FW)	
THEME-I	Principles of Management
Block-1	Health Care Services Management
Block-2	Human Resources Management <i>Part-A: Human Resource Management and its Overview</i> <i>Part-B: Qualitative skills for building organizational culture</i>
Block-3	Financial Management
Block-4	Material Management (Procurement and Equipment Management)
Block-5	Information Technology (IT) and Management Information System
Block-6	Quality of Care
Block-7	Practical Manual
THEME-II	Health Care Services
Block-1	Health Care Delivery System
Block-2	Planning, Implementation, Monitoring and Evaluation of Health Care Services
Block-3	Applied Epidemiology
Block-4	Management of Hospitals
Block-5	Disaster Management
Block-6	Practical Manual
THEME-III	Health Care Programme Management
Block-1	National Health Programmes
Block-2	Health Sector Reforms
Block-3	Programme Management
Block-4	Public Health Nutrition
Block-5	Practical Manual
THEME-IV	Dissertation Work
	Handout
TOTAL= 20 BLOCKS	

Course Coordinator: Prof. Pushpanjali Swain

Co-Coordinator: Dr. Raj Narayan

2. Post Graduate Diploma in Management -- Hospital Management (PGDM-HM)

Government of India's decision to have a public health specialist through National Health Mission (NHM) at the level of CHC for its smooth functioning leads to the realization that the management of modern hospitals has become challenging and complex because of:

- (i) Rapidly growing and changing medical technology.
- (ii) Increase awareness of public about modern diagnostic and therapeutic procedures.
- (iii) Promulgation of laws like CPA and RTI Act.
- (iv) Stiff market competition.
- (v) Medical Tourism.

Therefore, there is a need to have trained hospital administrators, who can have the skills to manage such crisis scientifically and efficiently by matching with the trend in health sector reforms.

In the absence of adequate infrastructure and manpower to run the regular administrative courses and to produce a large number of trained administrator in a short period, an alternative distance learning approach has been introduced by this institute, as an only effective approach in the present scenario for quick production of large number of trained hospital managers.

a. Objectives of the Course:

The candidates on successful completion of the course will be able to:

- Describe clearly the basic concepts of management and hospital management
- Apply the managerial skills in hospital environment
- Describe how to manage finance, human and material resources in hospital
- Describe planning and management of hospital and health care services
- Describe planning of patient care and hospital support services
- Formulate a research dissertation

b. Nature of the Course:

This course has been designed keeping in mind the managerial skills required for the modern day hospital administrators.

The course is continued in distance learning mode. The course is imparted by means of supplying printed study materials for self-study, two contact programs, submission of assignments and dissertation report.

c. Details about the Course:

- The total duration of the course is 15 months.
- The course comprises of theory and practical components.
- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate unable to complete the course in the academic year of admission, he/she can complete the course in the two subsequent academic years by depositing a continuation fee.
- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. Medium of Study: The medium of study is English. A candidate may appear the final examination in Hindi also.

e. Curriculum of the Course:

The curriculum is divided into 5 Themes and 18 Blocks. The fifth theme gives the guidelines for the Dissertation work. The break-up of the curriculum is given as:

Post Graduate Diploma in Management -- Hospital Management (PGDM-HM)	
THEME-I	Introduction to Management and Human Resource Development
Block-1	Management Principles and Practices in Hospital
Block-2	Human Resource Management
Block-3	Organizational Behaviour
Block-4	Practical Manual
THEME-II	Resource Management and Quality Control
Block-1	Financial Management
Block-2	Equipment and Material Management
Block-3	Hospital Information System and Quality Management
Block-4	Practical Manual
THEME-III	Hospital and Health Care Services
Block-1	Hospital and Health care System
Block-2	Hospital Planning and Designing

Block-3	Legal aspect of Hospital Administration
Block-4	Practical Manual
THEME-IV	Patient Care and Support Services
Block-1	Patient Care Services-I
Block-2	Patient Care Services-II
Block-3	Hospital Support Services
Block-4	Hospital Utility Services
Block-5	Practical Manual
THEME-V	Dissertation work
	Handout
TOTAL= 19 BLOCKS and a back ground note	

Course Coordinator: Prof. Manish Chaturvedi

Co-Coordinator: Dr. Ramesh Gandotra

3. Post Graduate Diploma in Management - Health Promotion (PGDM-HP)

Health promotion is the process of enabling people to increase control over the determinants of health and thereby improve their health. It represents a comprehensive social and political process, it not only embraces actions directed at strengthening the skills and capabilities of individuals, but also actions directed towards changing social, environmental and economic conditions so as to alleviate their impact on public and individual health. Though health education has been an integral component of the National Health Programmes, the objective of health promotion activities is to go beyond sharing knowledge to developing skills and bringing about change in attitudes and bringing healthy practices in the community. As a first step, it is essential to communicate the latest and most accurate knowledge and information to the frontline health professionals and public at large.

As health promotion is a technical process of providing information and/or education to individuals, families and communities to make positive contribution to their health status, the participation of all sectors like Panchayati raj Institutions, Health, Education, Public Works Department, Ministry of Women and Child Development, etc. and also of youth groups, women groups, NGO's, corporate sectors and community is essential to sustain health promotion action.

Therefore, in order to build the capacity of frontline professionals in health promotion, the National Institute of Health and Family Welfare (NIHFW) is conducting the '**Post Graduate Diploma in Management (PGDM) Health Promotion**' through distance

learning. The aim of this course is to build the capacity of medical, paramedical, school teachers, counselors and other stakeholders concerned with the health of the society across the sectors in aspects related to health promotion. The trained personnel in health promotion would greatly help in reducing the double burden of communicable and non-communicable diseases in India, through management of lifestyles by promoting healthy diet, physical activity, stress management, reduction of tobacco/ substance abuse and alcohol towards achieving healthy approach to life.

The professionals already engaged in public and private sectors would get an opportunity to develop specialization in the field of health promotion and thereby get benefit in their future endeavors. The Diploma in health promotion would benefit the health professionals, councilors, teachers, health managers in the NGO sectors by empowering them in planning, implementation of health promotion programmes in their respective settings.

a. Objectives of the Course:

The candidates should be able to:

- Describe the concept of health and health promotion;
- Describe the basics of health and disease in a holistic manner;
- Enumerate the role of social determinants of health and other sectors;
- Mainstream health promotion in the National Health Programmes (NHPs) and National Health Mission (NHM);
- Evaluate the policy context of health promotion and the effective use of resources in different settings;
- Design strategies for health promotion in different settings;
- Analyze and interpret available data at district, state and national level for health promotion;
- Describe the concept of health education, information, education and communication, behaviour change communication for health promotion; and
- Plan, monitor and evaluate the health promotion programmes.

b. Nature of Course:

This course has been designed in order to build the capacity of frontline professionals in health promotion through the distance learning mode. The course is imparted by means of supplying printed study materials for self-study, two contact programmes, submission of assignments and dissertation report.

c. Details about the Course:

- The total duration of the course is 15 months.

- The course comprises of theory and practical components.
- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate unable to complete the course in the academic year of admission, she/he can complete the course in the two subsequent academic years by depositing a continuation fee.
- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. Medium of Study: The medium of study is English. A candidate may appear the final examination in Hindi also.

e. Curriculum of the Course:

The curriculum is divided into 11 basic Modules covering 39 Units and 1 Practical module book. Development of Dissertation based on field level exercise is one of the major components of the course. The Dissertation work will be supported by duly identified mentors from NIHFV. The break-up of the curriculum is given as:

Post Graduate Diploma in Management - Health Promotion (PGDM-HP)	
THEME-I	Concepts and methods of Health Promotion
Block-1	Basic Concepts of Health and Health Promotion
Block-2	Reduction of Risk Factors of Non-communicable Diseases and Communicable Diseases
Block-3	Planning, Designing, Monitoring and Evaluation in Health Promotion
THEME-II	Basics of Health Promotion and National Health Programme
Block-1	Health Promotion and National Health Programmes
Block-2	Epidemiology, Health Statistics and Health Management Information System for Health Promotion
Block-3	Health Promotion in Different Settings
THEME-III	Strategies and Advocacy for Health Promotion
Block-1	Information, Education and Communication Strategies for Health Promotion
Block-2	Advocacy in Health Promotion
THEME-IV	Partnership and Capacity for Health Promotion
Block-1	Partnership in Health Promotion

Block-2	Capacity Building for Health Promotion
THEME-V	Gender and Health Promotion
Block-1	Gender and Health Promotion
THEME-VI	Practical
Block-1	Practical Module
TOTAL= 12 BLOCKS	

Course Coordinator: Dr. Ankur Yadav

Co-Coordinator: Dr. S.P. Singh

4. Post Graduate Diploma in Management - Applied Epidemiology (PGDM-AE)

A pragmatic approach with a focus on issues of major health and socio-economic concern is vital for the development of successful public health services. Striking a balance between different service providers after taking into account overall resource constraints, efficacy of service delivery and welfare gains is a key challenge. Among the other challenges facing the public health community is the need for coordinated multi-sectoral approaches to preventing and controlling complex disease problems.

Epidemiology—once viewed by health care executives as a fringe element of public health is in fact an essential discipline for the management of contemporary health systems. Knowledge of health and disease in a population is as important to the health care executive as it is to the public health officer. The on-going evolution of health care administration requires additional disciplines and tools. Epidemiology has a wealth of principles and applications that will affect planning, marketing, quality control, and policy formulation, which are fully dependent on epidemiologic data. It is now however, increasingly becoming evident that Epidemiology needs to move beyond the traditional biomedical sciences based approaches to the study of socio-cultural determinants, impact of disasters and climate change.

To enhance the capacity of health systems of the states in the shortest possible time; the National Institute of Health and Family Welfare (NIHFW) developed a Post Graduate Diploma in **Applied Epidemiology**; which is now sought to be delivered through Distance Learning.

NIHFW, with the financial assistance from The Institutional and Technical Strengthening Project (ITS) a part of the European Union and Government of India (EU-GoI) Sector Policy Support Programme to the National Rural Health Mission (NRHM) and the Reproductive and Child Health II (RCH-II), developed this course. This programme

endeavours to build capacity in using analytic tools and processes to critically analyse information received thereby adapting a pro-active approach to decision making whenever public health action is warranted.

a. Objectives of the Course:

The candidates on successful completion of the course will be able to:

- Acquire knowledge of various epidemiological techniques and uses of Epidemiology.
- Conduct Epidemiological investigation into disease causation and outbreak.
- Demonstrate ability to use the skills related to epidemiology for improvement in health system.

b. Nature of the Course:

This course has been designed keeping in mind the requirement of personnel who practices various applications of epidemiology to priorities health issues, plan for their mitigation and implement the same in the field. It will also help the participants acquire skills to operate and strengthen the public health surveillance and response systems for *both communicable and non-communicable diseases* and disasters and use the information for more effective detection, control, and prevention.

The course is continued in distance learning mode. The course is imparted by means of supplying printed study materials for self-study and through two contact programs, submission of assignments and Dissertation report.

c. Details about the Course:

- The total duration of the course is 15 months.
- The course comprises of theory and practical components.
- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate is unable to complete the course in the academic year of admission, he/she can complete the course in the two subsequent academic years by depositing a continuation fee.
- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. Medium of Study: The medium of study is English. A candidate may appear the final examination in Hindi also.

e. Curriculum of the Course:

The curriculum is divided into 5 Courses consisting of 20 blocks. The curriculum is divided into 6 Courses consisting of 20 blocks. The sixth course gives the guidelines for the project work. The break-up of the curriculum is given below:

Post Graduate Diploma in Management - Applied Epidemiology (PGDM-AE)	
THEME-I	Principles and methods of Epidemiologic practice
Block-1	Introduction to Epidemiology
Block-2	Epidemiologic Study Designs
Block-3	Ethics
THEME-II	Basic Bio-Statistics
Block-1	Scales of Measurement
Block-2	Tests of Significance
Block-3	Sampling
Block-4	Interpretation of epidemiologic study data
Block-5	Use of Routine Data for Epidemiologic Purpose
THEME-III A	Epidemiology of Diseases of Public Health importance: Communicable diseases – control and prevention
Block-1	Infectious Diseases: Epidemiology and, Control and Prevention
THEME-III B	Epidemiology of Diseases of Public Health importance: Non-Communicable diseases – control and prevention
Block-1	Recent Trends of Non-communicable Diseases (NCDs)
Block-2	NCD Prevention
Block-3	Emerging Challenges
THEME-IV A	A: Public Health Surveillance, Disasters and Response
Block-1	Surveillance – Why?
Block-2	Establish and Manage a Public Health Surveillance System
Block-3	Outbreak Detection and Response
Block-4	Disasters
THEME- IV B	Working with Public Health Laboratories
Block-1	Public Health Laboratories
Block-2	Validate Field Findings

THEME- V	Health Research Methodology
Block-1	Health Systems Research
Block-2	Scientific Manuscripts
THEME- VI	Project Work
Block-1	Problem Solving Exercises
Block-2	Data Analysis
Block-3	Training on Statistical Packages
Block-4	Case Studies
TOTAL= 24 BLOCKS	

Course Coordinator: Dr. Rajesh Ranjan
Co-Coordinator: Mrs. Bhawana Kathuria

5. Post Graduate Diploma in Management - Public Health Nutrition (PGDM-PHN)

A pragmatic approach with a focus on issues of major health and socio-economic concern is vital for the development of successful public health services. Striking a balance between different service providers after taking into account overall resource constraints, efficacy of service delivery and welfare gains is a key challenge. Among the other challenges facing the public health community is the need for coordinated multi-sectoral approaches to preventing and controlling complex disease problems.

The Certificate course in Public Health Nutrition programme is intended for people working in Public Health, Home Science and Nutrition-related fields; specifically, those who seek to enhance their understanding, skills and competency in designing, evaluating and interpreting evidence of nutritional health and wellbeing. The course aims to inculcate and strengthen the student's skills that can be used to develop/ implement the public health nutrition policies and programmes with greater efficacy for the benefit of the masses at large.

This programme endeavours to build capacity in using analytic tools and processes to critically analyse information received thereby adapting a pro-active approach to decision-making whenever public health action is warranted.

Nature of the Course:

This course has been designed keeping in mind the requirement of personnel working in Public Health, Home Science and Nutrition-related fields; specifically, those who seek to enhance their understanding, skills and competency in designing, evaluating and interpreting evidence of nutritional health and wellbeing. It will also help the participants

to acquire knowledge and skills in Public Health Nutrition so as to operate and strengthen the public health system.

a. Objectives of the Course:

The candidate on successful completion of the course will be able to:

- Generate greater awareness and understanding of the nutritional sciences relating to the field of Public Health Nutrition (PHN)
- Demonstrate an understanding of the approaches, methods and skills in PHN for nutrition and Health promotion of the masses
- Demonstrate an understanding of the political, institutional, social and scientific influences on PHN
- Develop the ability to translate research into practice through skills in nutrition surveillance, policy/ programme planning, implementation and evaluation as well as overall management of the programmes
- Conceptualize the interdisciplinary perspective of PHN at all levels – individual, household and community in the context of state, national and international scenario.

b. Nature of the Course:

This course has been designed keeping in mind the requirement of personnel working in Public Health, Home Science and Nutrition-related fields; specifically, those who seek to enhance their understanding, skills and competency in designing, evaluating and interpreting evidence of nutritional health and wellbeing. It will also help the participants to acquire knowledge and skills in Public Health Nutrition so as to operate and strengthen the public health system.

The course is continued in distance learning mode. The course is imparted by means of supplying printed study materials for self-study and through two contact programs, submission of assignments and Dissertation report.

c. Details about the Course:

- The total duration of the course is 15 months.
- The course comprises of theory and practical components.
- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate unable to

complete the course in the academic year of admission, he/she can complete the course in the two subsequent academic years by depositing a continuation fee.

- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. Medium of Study: The medium of study is English. A candidate may appear the final examination in Hindi also.

e. Curriculum of the Course:

The curriculum is divided into 8 Courses consisting of 21 blocks. The break-up of the curriculum is given below:

Post Graduate Diploma in Management - Public Health Nutrition (PGDM-PHN)	
THEME-I	Principles of Public Health Nutrition
Block-1	Introduction to Public Health Nutrition
Block-2	Trends in Global Nutrition
Block-3	Nutrition/ Health policies and Programmes
THEME-II	Nutrition during life Cycle
Block-1	Nutrition during Adulthood, Pregnancy and Lactation
Block-2	Nutrition during Infancy, Childhood, Adolescence and old age
THEME-III	Prevention and Nutritional Management in Nutritional Deficiencies, Common Ailments and Chronic Diseases
Block-1	Nutritional Deficiency Diseases: macro- Nutrient Deficiencies
Block-2	Nutritional Deficiency Diseases: micro- Nutrient Deficiencies
Block-3	Home based/ Dietary Management in Common Ailments
Block-4	Prevention and Management of Non- communicable diseases/ other disease conditions
THEME-IVA	Food safety and Standards
Block-1	Food safety and standards
THEME-IVB	Food and Nutrition security
Block-1	Food and Nutrition security/ insecurity
THEME-V	Nutritional Assessment and epidemiology
Block-1	Nutritional epidemiology

Block-2	Nutritional Assessment Systems and Indices/ Indicators
THEME- VI	Public Nutrition/ Health Programmes: Planning and Management
Block-1	Programme Planning
Block-2	Nutrition/ Health promotion and Communication Strategies
Block-3	Implementation and Evaluation of Public Health Nutrition programmes
THEME-VII	Basics of Research in Public Health Nutrition
Block-1	Basics of research in public health nutrition and Community based Research/ field work
Block-2	Meal Planning and Home based care
THEME-VIII	Practical work
Block-1	Home based Care for PHN
Block-2	Assessments for PHN
Block-3	Programme Planning and implementation
TOTAL= 21 BLOCKS	

Course Coordinator: Prof. Nanthini Subbiah

Co-Coordinator: Dr. A. M. Elizabeth

6. Post Graduate Diploma in Management - Health Communication (PGDM-HC)

Public health is of utmost importance for demographically young India. If people are the components of what builds a society, health is an influence-laden variable in the people's life. Low level of literacy and lack of awareness besides humble economic status of a large number of our population are the major factors contributing to the overall health scenario in the country. Analysis of existing 'Information, Education and Communication (IEC) and Behaviour Change Communication (BCC) programs has established the value of using specific communication strategies to promote health and control disease.

Hence, appropriate communication strategies are needed to encourage individual and community decisions that will enhance overall health of the county. As healthcare is to a large extent about 'people interacting with people or people interacting with systems' in health related contexts, better health for a population can be achieved by strengthening:

- (i) Healthcare connected programme-to-people communication
- (ii) Healthcare services center communication, and

(iii) Marketing communication practices of healthcare and related products.

The art and science of strategic communication to improve health need to be strengthened at all levels of health care delivery system in both public and private sector in the country. Therefore, a well design curriculum which focuses on evidence based training course should be instituted for current and future need of the country.

A comprehensive communication strategy improves not only the quality of healthcare but also establish strong confidence of people in health system which further improves community participation. For these reasons human resource in health need to be developed with the effective communication skills.

Theories, frameworks and approaches of behavioural sciences, mass communication, social media, and health education can be successfully pooled to train human resource in handling the existing and emerging health communication challenges

a. Objectives of the Course:

The participant on successful completion of the course will be able to:

- Describe communication theory and practice and the basic concepts of health and diseases in various cultural contexts
- Utilize communication channels to inform the target audience on health
- Explain the media law and advocacy programs
- Design a health communication strategy
- Manage the risk communication.
- Monitor and evaluate the health communication programs

b. Nature of the Course:

This course has been designed keeping in mind the requirement of personnel' who practices various strategies of communication to promote health and control diseases. NIHFW, with the financial assistance from The Institutional and Technical Strengthening Project (ITS) a part of the European Union and Government of India (EU-Gol). Sector Policy Support Programme to the National Rural Health Mission (NRHM) and the Reproductive and Child Health II (RCH-II), developed this course.

c. Details about the Course:

- The total duration of the course is 15 months.
- The course comprises of theory and practical components.

- Once admitted to the course, the candidate will get three opportunities to appear for the final examination including the year of admission. If candidate unable to complete the course in the academic year of admission, he/she can complete the course in the two subsequent academic years by depositing a continuation fee.
- After three academic years, the candidate has to re-enroll as a fresh candidate again with the re-submission of application and requisite course fee.

d. **Medium of Study:** The medium of study is English. A candidate may appear the final examination in Hindi also.

e. **Curriculum of the Course:**

The curriculum is divided into 5 Courses consisting of 16 blocks. The break-up of the curriculum is given below:

Post Graduate Diploma in Management - Health Communication (PGDM-HC)	
THEME-I	Health Communication: An introduction
Block-1	Communication-An overview
Block-2	Concept of health
Block-3	Need and importance of health communication
Block-4	Theories and models of communication
THEME-II	Health communication: Health Scenario
Block-1	Healthcare delivery system
Block-2	National health programmes
Block-3	National health Policies and Legislation
THEME-III	Health Communication: Behaviour in a Cultural Context
Block-1	Human Behaviour, Health and Culture
Block-2	Understanding health communication needs
Block-3	Health communication research
THEME-IV	Health communication: Channels
Block-1	Modes of Communication
Block-2	Advertising, Marketing and Public Relations(PR)
Block-3	Advocacy and networking
THEME-V	Health communication: Media Strategies

Block-1	Media Strategies: Concept and Design
Block-2	Media planning and implementation
Block-3	Monitoring and Evaluation
TOTAL= 16 BLOCKS	

Course Coordinator: Dr. Ankur Yadav

Co-Coordinator: Dr. S.P. Singh

C. ANNEXURE

ABOUT THE INSTITUTE

The National Institute of Health and Family Welfare (NIHFW) was established in 1977 by the amalgamation of two erstwhile institutes, i.e. National Institute of Health Administration and Education (NIHAE) and the National Institute of Family Planning (NIFP). NIHFW is an autonomous institute funded by the Ministry of Health and Family Welfare, Government of India and serves as an apex technical institute to promote national health and family welfare programmes in the country through its Education and Training, Research, Evaluation, Specialized Services, Advisory and Consultancy Services.
